Professional Profile

Java Developer Intern with a Bachelor's degree in Computer Science (2026). Practical knowledge of Java backend development gained through academic, personal and internship projects. Worked on learning-oriented projects involving REST APIs, data processing, and system integration. Comfortable working in a team environment and continuously improving technical skills.

Education

2021 – 2026 | Bachelor's Degree in Computer Science
Horyzont – Wrocław University of Applied Informatics, Wrocław

Professional Experience

- Junior Software Development Intern – EPAM (May 2025 – March 2026)
 - Participated in Java backend development tasks
 - Gained hands-on exposure to REST API development (Spring Boot)
- Software Development Intern – OnLex.net (2024)
 - Supported development and maintenance of application components

Selected Projects

Project: AI-Powered Semantic Search Application (Bachelor's Thesis)

Technologies: Java 21, Spring Boot, Telegram API, PostgreSQL, Vector Database

- Designed and implemented core backend components of an AI-based application enabling semantic search using vector embeddings.
- Implemented backend part in Java with Spring Boot and integrated a vector database for similarity search.
- Implemented API integrations with Facebook.
- Handled data persistence using PostgreSQL.

Project: Sejm API Social Media Publisher (Independent Personal Project)

Technologies: Java, Spring Boot, Facebook API, REST API

- Built a backend application that retrieves public data from the Polish Sejm API and automatically publishes updates to social media platforms.
- Implemented API integrations with Facebook.
- Designed scheduled data fetching and content publishing logic.
- Ensured reliable data processing and error handling.

Technical Skills

Basic understanding of clean code principles and RESTful API design.

Java 21, Spring Boot, Spring Data, REST APIs, PostgreSQL

Languages

Polish – Native | English – B2 | German – Currently learning
